The Sliding Cabinet

The sliding-cabinet is air-tight and well dust-tight and is well shielded from light. So the cabinet is good to store medicine. The cabinet also has a safety key to store manage medicine.

The Rotary Cassette

The Rotary Cassette can change its size into three different ones. You can change the size by adding an Adapter the Rotary Cassette in conformity with the shape and quantity of medicine. And you can choose a proper size for the purpose of medicine. The main body of the Rotary cassette is well shielded light and is well dust-tight and damp-proof, so the Rotary cassette is good to store medicine. The Rotary Cassette doesn't have any part of electrical contact, so you can clean it by washing easily.

The Touch Panel

The big size touch panel is a color LCD that is good to operate and see, and you can change the angle of the screen to see well. The panel displays alarms with illustration, so it's easy to know where troubles happens.

Main-TOPRA4001CE is a Tablet Packing Machine from the needs

Comfortable to pharmacists, good to environment.
It's the best choice to pharmacy automation.
